

# Corporate Membership - Partnership

Join **SEFI** and become part of the largest network of higher engineering education actors in Europe.

# Corporate Membership

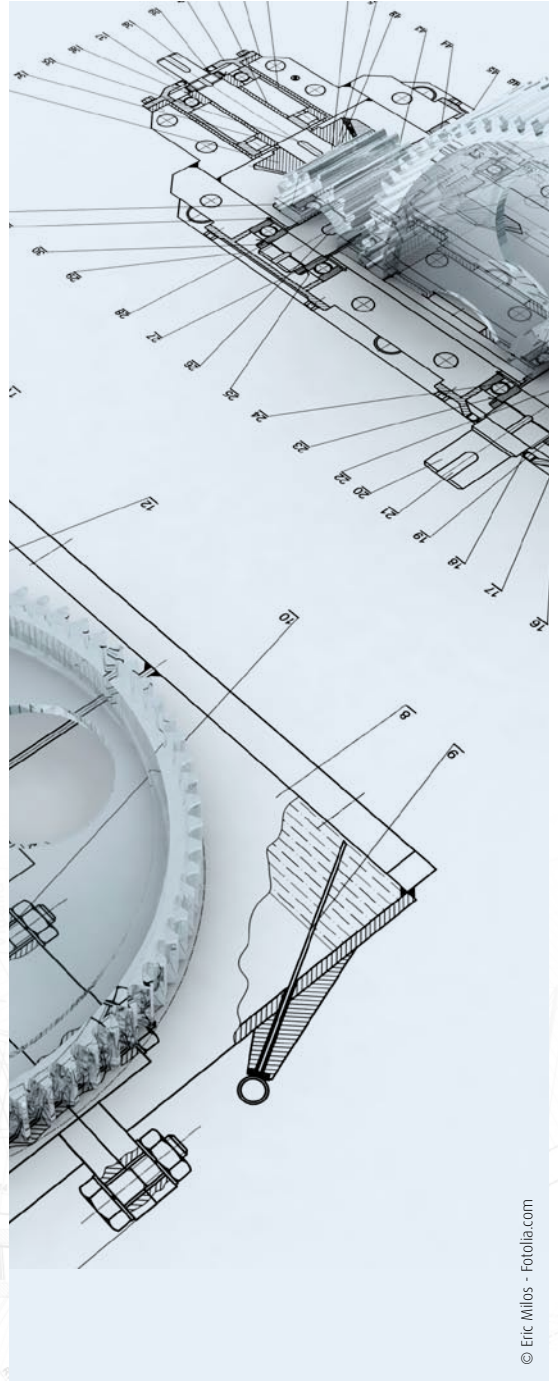

The European Society for Engineering Education is a network of 400 members:

Higher engineering institutions, professional societies, student associations, students, academic staff, engineers and corporates within Europe and worldwide.

SEFI offers a unique platform for networking and SEFI develops concrete actions to improve and promote European higher engineering education.

SEFI offers a unique opportunity to corporates to:

- Be aware of European policies in engineering education and anticipate how they can affect their workforce
- Influence those policies with the voice of their company, their industry or their profession.
- Be alerted of opportunities for participation in European projects that relate to engineering education
- Meet engineering students and education stakeholders from both Europe and worldwide
- Participate in recruitment activities
- Benefit from student projects and internships
- Discuss newest topics within global collaboration and innovation
- Enhance their company's visibility within the European and global engineering education community

# Partnership
